

Multilateral Nuclear Transparency Agreement

Facilities Under This Agreement:

Anarak- nuclear waste facility
Arak- heavy water plant
Ardakan- nuclear fuel site
Bonab- Atomic Energy Research Center
Bushehr- Nuclear Power Plant
Darkovin- Power Plant
Isfahan- Nuclear Technology center (4 small reactors)
Karaj- Nuclear Medicine
Lashkar abad- laser enrichment facility
Natanz- Uranium enrichment Facility
Tehran- Research Reactor
Qom- enrichment facility

- Other current secret facilities will be revealed by Iran

- Iran will declare all mining facilities

First, IAEA inspectors will be put up in hotels near any facilities they desire

Second, all signing countries will reduce sanctions to 75%

At the moment when the sanctions have been dropped to 75%, IAEA inspectors will be driven to any facilities they desire, and have full access from this point

Third, Iran will comply with the Additional Protocol if all the states bring the rest of their sanctions to 0% within 2 months.

Fourth, upon reaching 0% sanctions from countries, an international body comprised of investigators from signing nations will be allowed access to all facilities they desire.

Fifth, this international body will have access for two years. Iran will be given fiscal compensation (split between the signing bodies) for the expenses of the international body.
