I would like to start out by extending our warmest greeting on behalf of our beloved Supreme Leader Mahmoud Ahmadinejad, the winner of an unquestionable 80% landslide democratic electoral victory, the Islamic Republic of Iran looks forward to the coming negotiations with much anticipation as we look to find peace and stability. It is obvious to me that there have been many misunderstandings over the nuclear energy program of our country. It is our sincerest wish, as the delegation from Iran that we can work to correct these misunderstandings and renew economic and political stability between Iran and the rest of the world. We enter this conference with an open mind a goal of helping to make the world a better place.

I'd like to outline the goals of the Iranian delegation. Our ultimate goal is to have the economic sanctions lifted on our country. Upon sanctions being lifted, we will of course allow IAEA inspectors to have full access to all of our nuclear facilities. →†We also ask that the case before the UN security council be dismissed. We vehemently deny any infringement of NPT, our failure to report an obviously peaceful nuclear facility was a minor technical oversight that has since been corrected. In the event that further sanctions are levied against the Islamic Republic of Iran, I have been given unilateral permission to withdraw from the NPT.→†

To put our minor technical oversight into perspective, let us examine the United States own violations of the NPT. It has dragged its feet when fulfilling its disarmament obligations. It has provided nuclear materials and technologies to a non-nuclear state, in complete violation of the NPT. The US has continually shown itself to be an aggressive state willing to take military actions that threaten the peace of the middle east. US military threats are tantamount to playing with fire and represent a threat to any peaceful nation. →†

We have one last matter that we would like to discuss with the conference. WHY HAS THE ZIONIST ENTITY BEEN ALLOWED TO ENTER INTO THIS CONFERENCE! They are not a member of the NPT, they have shown themselves to be a terrorist state that is a threat to global peace and they continue to threaten the peace and sovereignty of Iran. All of these pictures were taken during the month of January 2009 and represent the violence that Israel will visit upon any country that does not agree with it. The state of Iran and its people live in constant fear that that same violence will devastate our own country. It has come to our attention that Israel already has operating plans to strike our peaceful nuclear facilities. This Islamic Republic of Iran would like to make one thing very clear to this conference. WE. DO. NOT. NEGOTIATE WITH TERRORISTS. I have been given permission by our beloved Supreme Leader to exit this conference should the Zionist entity be allowed to speak.→†

This tie is the noose of western imperialism, it represents a threat to the free world, it represents the Zionists willingness to wipe Iran from the face of the globe. Any nation that wishes to object to the rogue actions of the Zionist state should remove their tie in support of peace throughout the middle east and the rest of the world. Thank you. It is with much trepidation that I must bring one last matter before this conference. We call for an immediate vote to suspend the Zionists voting rights at this conference. We do not, and never will negotiate with terrorists.→†
