

Hello Fellow Delegates,

Thank you so much for inviting us to this conference. I would like to take this moment to remember the glory of Kim Il Sung. By putting in us the spirit of *juche*, he gave the Democratic People's Republic of North Korea independence and self-reliance. North Korea honors him by following his example, and will continue to be a sovereign nation and free from the grasp of imperialist nations.

Today, I am here humbly representing the honorable Kim Jong Il. His outstanding leadership serves as an example and a guiding light for both North Korea and the rest of the world. I know our Dear Leader will be pleased to hear that over the course of this conference, every country shows North Korea respect by recognizing their dignity and power. As for nations that fail to recognize the greatness of our Dear Leader, he hopes that they will come to recognize the intelligence and leadership that manifests itself in the people of the Democratic People's Republic of North Korea.

North Korea fully supports Iran in their decision to develop peaceful nuclear technology. Iran is a sovereign nation, and North Korea is willing to stand by their decisions. We will not let arrogant countries think that they have the right to interfere with their sovereignty. Therefore, we condemn the US and other powers for their blatant disregard in attempting to restrict the rights of Iran. A blow against Iran is a blow against all of us, and will lead to a nuclear holocaust.

Furthermore, we would like to announce today that if any additional sanctions are levied against Iran, the Democratic People's Republic of North Korea will not rejoin the discriminatory Non-Proliferation Treaty or agree to the return of International Atomic Energy Agency inspectors or any other inspectors. They are spies for the United States, and only interested in furthering the goals of the Western devil.

We look forward to continued amicable relations with many countries at this conference, especially our Chinese brothers. We also look forward to developing productive relationships with Russia and the European delegates.

As far as our nuclear program is concerned, we maintain that we were forced to develop a deterrent because of the rogue Bush regime. We were fighting and continue fighting against the empire of the devil, and we have seen no attempts to reconcile the demonic actions of his regime. As a result, North Korea is as determined and willing as ever to fight back against this tyranny.

I would like to conclude by making it known that the opinions of our Dear Leader and our great country will not be overshadowed by the arrogance of Western delegates at this conference. We are determined to be heard and we are not afraid or unwilling to use the means we have to make ourselves heard if the conceit of the Western devil will not allow him to open his ears to the intelligence that *juche* gives to the North Korean people.

Thank you so much for giving North Korea your time and attention. We hope that the spirit of *juche* will help guide you all, and especially Iran, towards

self-reliance and the right of sovereignty in every nation.
