DPRK REITERATES TERRITORIAL SOVEREIGNTY, THREATENS NUCLEAR FORCE

The North Korean delegation made a strong declaration of the sovereignty of Vollum 116 with a written statement on the board in that room. The statement promises that any aggression against such territory will be met with a "nuclear holocaust."

CAMERON GIVEN PANGS OF GRIEF BY DELEGATION'S PERFORMANCE; NO STIFF UPPER LIP FOR BRIT PM

David Cameron, Prime Minister of the United Kingdom, has been hospitalized in London following heart trouble. Sources close to the voracious British Prime Minister have indicated to tabloids that his condition has been brought on in part about the "bumbling" performance of his delegation so far.

DPRK PLANS SATELLITE LAUNCH!

The DPRK has accelerated its plans to launch a satellite into orbit to commemorate the one hundredth birthday of its founder, Kim Il-Sung, after the recent discovery that the Eternal President was born one week earlier than previously believed—today, April 7th, is the anniversary, rather than April 15th as previously believed. Hail to the Eternal President, whose dedication to the Korean People is so great that he undertook to relieve his mother of the painful but noble duty of childbearing one week early. Upon his birth the earth shook and a thousand swans took flight. As then, so today will the industrial and technical prowess of the Korean People shake the earth and launch a beacon unto the heavens.

CHINA ON BOARD WITH DPRK SANCTIONS?

An anonymous source has indicated to the Express that if the DPRK carries out its planned satellite launch, under strong international condemnation, the Chinese government will allow if not participate in a strengthening of international sanctions against the North Korean government.

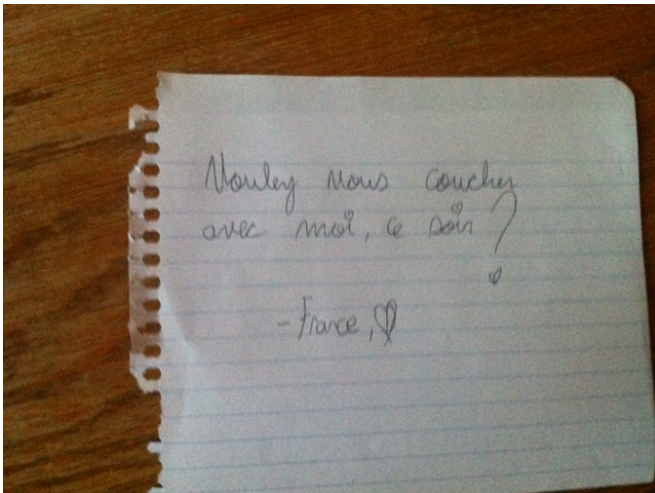

DIRTY BOMB IN MUMBAI FOLLOWS BORDER SHELLING BY PAKISTAN; INDIAN DELEGATION APPARENTLY NOT INFORMED BY GOVERNMENT IN SHAMBLES

A dirty bomb was detonated yesterday in the downtown area of Mumbai sending shocks throughout the global community. The early morning rush of Mumbai was ripped apart by the explosion of what is reported to be an old Russian device, based on the radiological signature detected after the attack. The total numbers of casualties are still unknown, and it will take some time to determine the full breath of the damage. However, it is known that this attack followed an assault by Pakistani artillery units on the Indian Boarder. No organization has come forward taking credit for these attacks, and Pakistan denies any involvement, saying, "We decry this horrendous attack and reject even the possibility of our involvement." The Indian Government, surprising, has no knowledge to this horrible attack, indicating a level of government ineptitude that personally surprises this reporter. The attack was made all the more curious by the discovery of strange biological samples at the scene, a scientist inside the recovery effort has told the Truthiness Express.

CHINA ACCUSED OF CONFERENCE ESPIONAGE

In a shocking set of allegations, China was accused of using recording devices to listen in on multiple delegations by an unnamed source. The Express has had no comment from the Chinese delegation on the matter at this time.

SCANDAL: FRENCH AND RUSSIAN DELEGATES GETTING TOO CLOSE FOR COMFORT?

A love note from a French delegate to a member of the Russian team was discovered Friday night, in a shocking and utterly unprecedented breach of decorum. A translator in our office has rendered the message in English: "Would you like to sleep with me tonight?" Shocking.

CONFUSION OVER ISRAELI/IRANIAN SCIENCE MINISTER CONTINUES

Confusion has emerged at the conference over the supposed assassination of the Iranian Science Minister, and the arrival of his supposed twin to take the role of Israeli Science Minister. Unconfirmed reports of a third identical individual, making them triplets, have emerged as well. Adding to all of this, the new Israeli Science Minister has been reported missing by his delegation. The events of last night are still unclear, but there were reports of men in Hazmat gear and carrying weapons. Beyond this very little is known at this time.
