Math 112 To Do List

1. Read our course Course information sheet carefully.

2. Make sure you have access to our Moodle page:
$$\texttt{https://moodle.reed.edu/course/view.php?id=5432}.$$
   If you do not, send email to davidp@reed.edu immediately.

3. Make sure you have access to our course on Gradescope. If not, you will find an entry code on our Moodle page.

4. LaTeX: create an account at Overleaf (`https://www.overleaf.com/`). If interested, take a look at the Overleaf Latex in 30 minutes tutorial.

5. Prepare for Wednesday's class:

   (i) Read the lecture for Wednesday. The link is at our course homepage (`https://people.reed.edu/~davidp/112/`). The listed supplemental reading is optional. You might want to at least quickly skim through it.

   (ii) After reading the lecture, watch the accompanying Lecture/quiz (link at our course homepage). The quiz is graded only on whether you complete it, not on the score.
