

PRE-COURSE SURVEY

MATH 111: CALCULUS

Please return this anonymous survey on Friday, 6.IX.14 at the start of class.

Have you ever taken a calculus course before? If so, what type (AP, IB, A Level, college course, ...)? If not, what is the most recent mathematics course you took?

In your most recent math class, what was the hardest part of the subject? What part was most interesting?

What major or majors do you intend to pursue? (If you are unsure, or have multiple interests, feel free to describe them here.)

Please rank your current interest in taking an upper level¹ mathematics course at some point during your tenure at Reed on a scale from 0 to 5, 0 indicating no interest, and 5 indicating a definite intent to pursue this coursework.

Date: 2.IX.14.

¹300-level or higher.

If you are interested in upper-level math work, what type of mathematics interests you?

What do you hope to gain from taking Math 111?

If you have additional comments, please record them below.

Thanks!
