MATH 311: COMPLEX ANALYSIS
EXAM 1 METACOGNITIVE REDO

In order to regain credit for one (and only one) problem from Exam 1, you may:

(a) Identify the mistake you made on the problem.

(b) Identify the important concepts examined or used in the problem.

(c) Find or create a question of similar difficulty which engages with the same concepts; clearly state this question.

(d) Solve your question.

(e) Turn parts (a)-(d) in to the instructor by the start of class on Friday, March 1.

You are welcome to consult with the instructor when selecting/creating and solving your problem. Cite any sources used. **You may not select a question if you have accessed its solution (in print, on the Internet, or in some other form).**
