

Attach at the end of your homework assignment.

Revisiting the handouts “Communicating Mathematics through Homework and Exams” and “Some Guidelines for Good Mathematical Writing”, include the following, labeling this as “**Writing exercise**”.

- (a) Mark up your finished homework assignment, showing where you followed or failed to follow the mechanical and stylistic issues outlined in the handout *Communicating Mathematics. . .*. This means **treat your write-up as a second-to-last draft**, and go point-by-point through the handout and address instances where you followed or did not follow each direction in your writing. Use a different-colored pen if you have one, and hand in this marked up draft. You do not need to rewrite the result.

How have you improved this week over your previous homework? How might you improve in the future?

- (b) List three or more ways that you succeeded or failed at following the advice in *Some Guidelines. . .*. How have you improved this week over your previous homework? How might you improve in the future?

To receive credit for this homework assignment, you must complete this exercise.
